BESE

Continued from Page 11A
so that it may be revised to increase the pay raise to a minimum of \$2,000 for certificated staff and \$1,000 for non-certificated support staff.

The formula adopted by the Board aligns with the recommendations of the MFP Task Force, a BESE advisory council comprised of a diverse membership of Louisiana education stakeholders. The task force provided guidance on identifying priorities and improving the formula to ensure the most equitable method of funding public education for the coming year.

BESE's funding proposal maintains support for certified mentor teachers through an annual allocation of \$2,000 per mentor teacher. These experienced local educators share their knowledge and skills to effectively coach and support new and resident teachers in their district, and are an important part of the state's educational leadership pipeline. The new formula also expands the allowable use of the Career Development Fund supplementary allocation to include course tuition for career and technical education and increases Supplemental Course Allocation per pupil amount from \$59 to \$70.

Complete details on the 2022-2023 MFP formula are available online via the BESE BoardDocs website.
